Integrated Teacher Education Program (ITEP) Pathway

This is an accelerated pathway to earn your multiple subject credential. In addition, the above pathway also includes the Bilingual Authorization option. For international transfer students can take at least one year off the current program. All teacher education programs are accredited by the California Commission on Teacher Education (CCTE, ctc.ca.gov). Our teaching programs hold a strong reputation for producing the best teachers in the Central Valley and are extremely sought after by public and private schools.

*This roadmap is an example of the pathway a student can follow to complete the degree requirements. Students should meet with an FPU Academic Advisor to develop a personalized education plan.
